"When you are doing any work. Do it as worship, as the highest worship, and devote your whole life to it for the time being."

Swami Vivekananda

"The students' movement of today is a movement of responsible young men and women who are inspired with the one ideal of developing their character and personality and thereby rendering the most effective and useful service to the cause of their country."

Netaji Subhash Chandra Bose

- National Youth Day: Swami Vivekananda's Birthday (12th January)
- Parakram Divas: Netaji Subhash Chandra Bose's Birthday (23rd January)
- Republic Day (26th January)

MAILESTONES

Qualities of a Social Entrepreneur

Entrepreneurial	Profit-oriented	Socially Responsible
Enthusiastic	Action-oriented	Communicative
Compassionate	Helpful	Volunteer
Supportive	Empathetic	Respectful
Healthy	Environmental-friendly	Positive
	Law-abiding	Patriotic

What You Need to Do

- Ask yourself what you have in you to offer to community and neighbourhood!
- Conduct the Social Entrepreneurship (S.E) Activities
- First-Please Form SSHG
<https://forms.gle/Tpbcn67pSC7QbzYt7>
- Seek help or consult the College/MGNCRE/Parents/Neighbourhood.
- Formulate an action plan with values, time and place
- Chart out the tools and resources
- Have implementation/ procedure steps/ precautions
- Include homes, school, colleges, offices, business, organizations.
- Document the outcomes of conducting S.E activities and send to mgncrecell@gmail.com

You can conduct these

Social Entrepreneurship Activities

- Find ways to recycle waste food
- Teach or organize tailoring/embroidery/stitching classes
- Start an educational start up that would advise students to prepare for exams
- Start online/offline coaching classes
- Organize meets for the elderly and the disabled and sell user-friendly products at discounted prices
- Collect sustainable materials from the neighborhood – reuse and recycle
- Educate about tourism to the community
- Start a wellness/physiotherapy parlor for the elderly
- Organize a market drive where people may bring in unused/unneeded/spare things (books, toys, stationery, clothes, which may be distributed to the needy.
- Make videos of your village and showcase on YouTube
- Make videos on village and its achievements in local/rural entrepreneurship
- More ideas at
<https://sites.google.com/view/studentselfhelpgroups/home>

Sub: MGNCRE-DHE-MoE-Gol-SAP-SESREC- District Level Workshop on "Social Entrepreneurship, Sustainability and Rural Engagement"-Invitation- Offline workshop Participate-Invitation-Reg.

Dear Professor ji,

Greetings from Mahatma Gandhi National Council of Rural Education (MGNCRE), Department of Higher Education, Ministry of Education, Government of India! Your contribution to the Sustainability is appreciated and recognized in the Ministry.

MGNCRE has been actively promoting **Social Entrepreneurship, Sustainability and Rural Engagement Cells** in the Higher Education Institutions across the country through capacity and competence building programs; activities and workshops are part of the agenda. The areas of experience sharing include aspects of Swachhta on Campus, Campus Jal Shakti (Water Conservation in campus), and Sustainable Practices on Campus and villages, and **Skilling for Social Entrepreneurship**.

An interactive workshop on "**Social Entrepreneurship, Sustainability and Rural Engagement**" covering 20 Higher Education colleges is **being organized at Maturisri Engineering College, Saidabad Hyderabad on 29th October 2022 (Saturday) from 10.00 AM to 4.00 PM**. We will facilitate with conveyance (College Bus transportation) and hospitality. **Certificate will be provided** to the participants.

in this context, we request you to depute a relevant faculty member from your Higher Education Institution to participate in the workshop and provide their valuable inputs.

Registration link: <https://forms.gle/BG3tViiH2P1bmVDu9> (offline Face-to-face Workshop) Coordinator:

MGNCRE Resource Person will be on hand to conduct the workshop.

MGNCRE SESREC program associates, Mr.T.Vishnu and P.Ravindra 9395153535 will be connecting with your office in this regard. They can be reached for all clarifications.

We look forward to your contribution to this national endeavour in promoting sustainable practices in the Higher Education institutions.

Thanking you.

With best regards,

Yours sincerely,

Dr. W G Prasanna Kumar

Student Self Help Group Formation-Higher Educational Institutions- Registration Form

MGNCRE, as a National Level Agency for Implementing Sustainability in Higher Educational Institutions (HEIs), we are promoting Vocational Education, Skilling and Entrepreneurship through formation of Student Self Help groups. One of our initiatives is the Mahatma Gandhi Rural Internship Programme, 2022. Under this programme our Interns are co-coordinating to form Student Self Help Groups, Skill Development and Entrepreneurship Cells in HEIs. We invite students from various Higher Educational Institutions to form SSHGs to be self-sustainable and self-employable.

What kind of Skill and Entrepreneurship the SSHG is going to learn and practice?		<p>Student Self-Help Groups (SSHGs) focused on social entrepreneurship can learn and practice a wide range of skills and entrepreneurship.</p> <p>➤ Problem identification and solution creation: SSHGs can learn how to identify social problems and create solutions that are both effective and sustainable.</p>

	<ul style="list-style-type: none"> ➤ Business planning and development: SSHGs can develop skills related to business planning, including market research, financial planning, and marketing strategy. ➤ Project management: SSHGs can learn how to manage projects from start to finish, including setting goals, creating timelines, and tracking progress. ➤ Leadership and teamwork: SSHGs can develop skills related to leadership and teamwork, including communication, collaboration, and conflict resolution. ➤ Fundraising: SSHGs can learn how to raise funds and write grant proposals in order to secure financial resources to support their social enterprise.
Any time lines or targets to be achieved?	<p>The specific timelines or targets for a Student Self-Help Group (SSHG) focused on rural education and entrepreneurship in collaboration with MGNCRE will depend on the goals and objectives of the group.</p> <p>The specific goals and objectives of the SSHG should be tailored to the needs and context of the community they are serving. It's also important to regularly review and adapt these goals based on progress and feedback from stakeholders.</p> <ul style="list-style-type: none"> ➤ Short-term goals (1-6 months) ➤ Medium-term goals (6-12 months) ➤ Long-term goals (1-3 years)
Remarks	<p>Overall, SSHGs can learn and practice a range of skills that are essential for social entrepreneurship, including problem-solving, strategic planning, communication, leadership, and teamwork.</p>

SSHG SALES COUNTER ESTABLISHED AND OPERATING IN CAMPUS

The Cakesmith (Fundraiser)

Student Name: Rana Siddiqui (Pharm.D)

The Cakesmith is a cake artistry business that specializes in creating unique and personalized cakes for various occasions, such as weddings and birthdays. I take pride in my ability to create bespoke designs that reflect the client's specific tastes and preferences.

A couple of days ago, I hosted a charity cake auction on my page to raise money as aid for the recent earthquake in Turkey. I used the platform to spread awareness about the cause and encouraged my followers to bid on the cake through the comments section.

It ran for 6 hours, throughout which, I kept the participants updated about the highest bid through our page. In the end, the charity cake auction was a huge success, with a total of 1,00,000/- raised through the bids and generous donations made by everyone. I arranged for the funds to be donated through the Turkish consulate to ensure that they reached those who needed them the most.

This charity cake auction not only raised funds for a good cause but also brought people together and highlighted the power of community support in times of crisis.

You can see the highlights of similar auctions we hosted in the past through this link :-

FUNCTIONING CAMPUS MGNCRE ENTREPRENEURSHIP DEVELOPMENT CELL/SES RE/VENTEL CELLS

Cookie Monster

Runs a dessert business since 2019, specializing in brownies and cookies. The business is run by a passionate student who believes that there should always be a balance between our work and personal lives. Cookie Monster was one of the few businesses that operated throughout the lockdown and was there to help all individuals get through those tough times with their food cravings. The best speciality of Cookie Monster is that it sells desserts such as brownies, Cookies and Nutella jars. Each of these desserts are handpicked and made with the best ingredients and the owner ensures that only the best items are delivered to your doorstep. she also specialises in cakes and provides brownie slabs for special occasions. This business strives to deliver the best quality products and ensures customer satisfaction. We have sold over 500 orders that have reached people in Hyderabad, different cities of India and the desserts have also travelled to destinations abroad. Try them today!

The company aims to help businesses become more unique and also ensures that they are able to provide the best solutions for their clients by using the most standardized and competitive English possible. We also provide trainings services, interviews and more. With Hafway Through, expressing yourself is ten times easier. The owner of the company has been working in this field for over 5 years with experience working with more than eighty clients, who are based internationally and also in India. The owner has also worked with Tedx events and thus believes that with their experience and your dream, they can help you cultivate an image that deems your position worthwhile in this competitive world. We must remember that first impressions are the most lasting, and we are here to ensure that yours resonates forever.

Let's get started today!

THE POWER OF WORDS, AT YOUR SERVICE!

Join us today!

Sasha Resin Store –

Sasha resin store isn't just a Start-up it is a venture of experimenting, designing, fabricating and creating ornamental articles using Epoxy resin. My start up like most Began during Covid-19 pandemic times. It initially accelerated as a hobby of exploring the fluid art taking various shapes and forms of the Moulds that the resin is poured into. I sell aesthetic Little keychains, pop-socket, coasters , phone covers as well as big Frames, serving trays. Most Sod item Is the wedding Name stand. Speciality of My start up is Customisation of Colours, Glitters, Names, dates, events. Customers prefer Gifting their friends and relatives my handmade, intricately designed Name STANDS which can be perfect for keeping as show piece or can be hanged on wall like any other photo frames. I customise articles according to the events in which the customer desires to give it as gift . My products reach is within the city(Hyderabad) as well as out of the city . I've sold my Wedding name frames In Bangalore as well as Mumbai. Being A small start-up my product prices are way more reasonable than the one's sold online. So, my Start-up products are budget friendly. I aim to upgrade my Resin Small business to a well flourished business. I have hence even maintained a business profile on Instagram @sasha_resinstore.

Genpharma –

The idea is simple. Popularize the usage of generic medicine. Many people are still unaware of the concept of generic medicine and if they're it is considered of lower quality than the branded. Genpharma will work on debunking this myth and popularize the usage of generic medicine. I conducted a small experiment involving people near my house including my own family. They were asked questions:

1. What is the monthly expense of drugs in household
2. Would you be satisfied with lower cost products
3. Will you opt for generic products

Out of 50 only 1 opted to go for generic drugs.

In the end the observation was that

- People wanted cheaper rates for the same drug from the same company.
- Factors responsible were
 - .Packaging quality
 - .The location of generic stores
 - .Doctors don't prescribe
 - .Not aware of any such thing

Hence the final conclusion drives here that generic medicine has a vast market, if propagated properly this will turn out to be a game changer.

Currently, there are companies working on this but their reachability is restricted.

GenPharma

Hyderabadi Flavours-

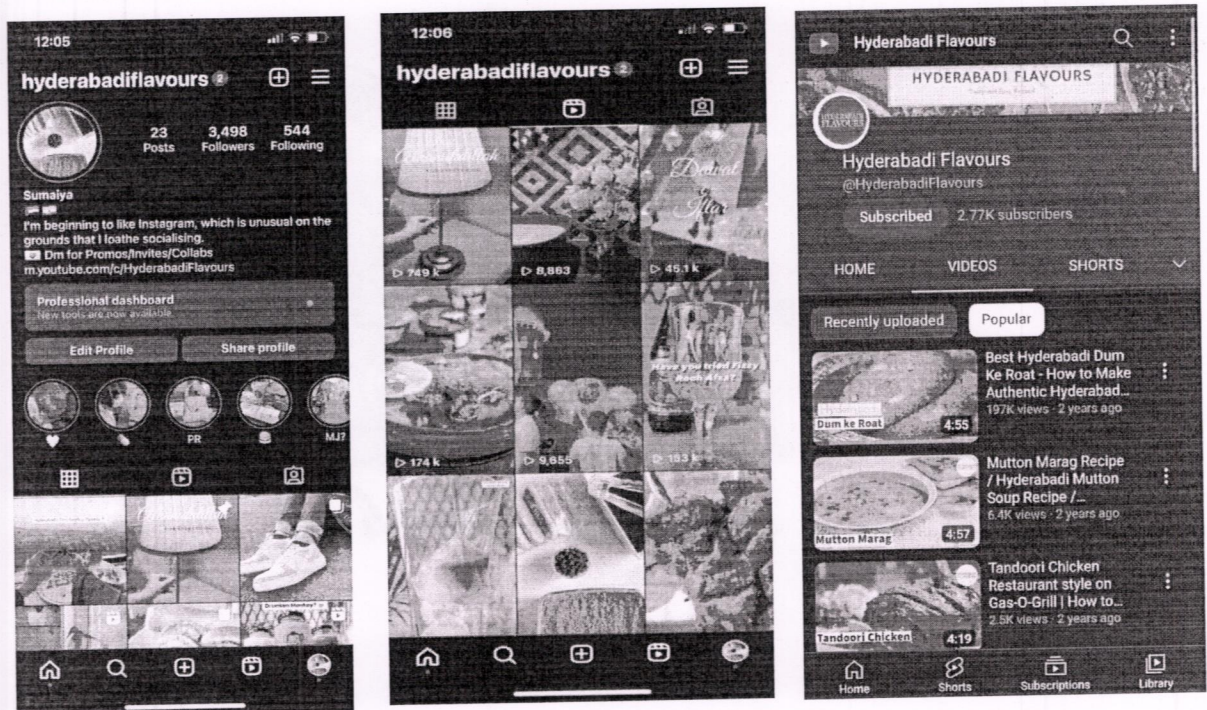

My journey towards creating a platform where I could share my own recipes as well reviewing and rating restaurants and café's began with the zeal to make use of all the fields of my expertise during the lockdown.

I had previously been a cinematographer and editor for one of the Top 30 films in the Children's International Film Festival in Dubai. The lockdown felt like the perfect time to make use of my love for editing and cooking. In just a few months my subscribers grew exponentially and the YouTube channel got monetised, I get to earn several dollars with each video posted which differs by the number of views it gets.

Meanwhile other companies like Domino's, Pizza Hut and several Café's, Bakeries and Restaurants all around Hyderabad began inviting me to capture or promote their place. Subhan Bakery, Slice'd Hyderabad and Café Bahar are just one of those many places that I had been invited to and had the opportunity to capture, rate and promote as a content creator.

Once the page began doing even better, Zomato had hired me as a "Zomato Influencer" where I was provided with the opportunity to create content for even more places in Hyderabad, This allowed me to bring the best information to the public in the form of pictures and reels about the Trending café's and the best places to dine with no bias while rating them.

After getting close to around 3.49K followers on my page, by the grace of God I have been blessed with a platform where I can post relevant social issues to increase awareness or gather help for various problems such as gathering packages to be sent to the victims of the recent Devastating earthquakes in Turkey.

Loops of thread-

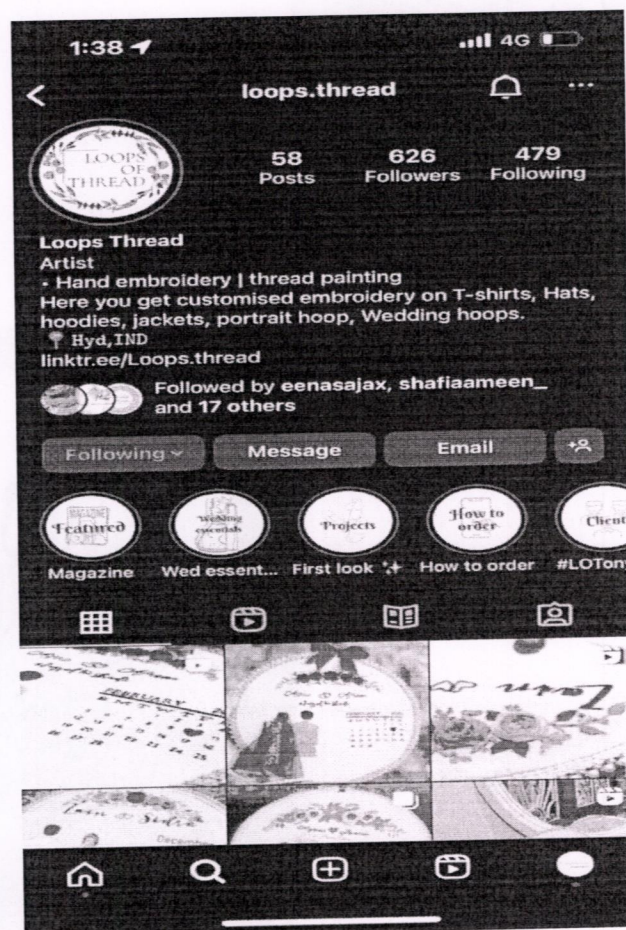

Loops of Thread is a Hand embroidery business which creates art in the form of wall hanging hoops / glass frames. Various other items like a Centre table decor, embroidery on your bags, shirts, jackets, pants and hats.

In search of a new hobby I discovered my passion for Embroidery.

I joined a summer camp when I was 14 years old where I got to learn basic stitching techniques. By June of 2020, I improved quite a bit by practicing. As embroidery is a skill perfected only through practice, It was quite tough for people to see it as modern art at first - as it was done by elder group of people in our household.

Not many people are aware of how beautiful, creative, time dependent, and inventive it can get with every piece you create. I get a lot of "Why are you into this? This seems boring, a waste of time, something a granny does, etc."

Embroidery is quite under-appreciated, it needs to be recognised more. It is more than a hobby. It is unconventional. It is expressive. It is original.

Craftoor-

Founder of craftoor (Instagram @craftoor_), and co- founder of Mashaal woman's safety program , I got the opportunity as an entrepreneur back in 2020 when my college organized fest and I had to put up a stall that's when I know what entrepreneurship is.Later in the year 2022 I was selected as a campus lead of EdVenturepark which led me an opportunity to organise self defense program for girls & meanwhile I was working on a new organization Mashaal which is a womens safety program

Resin hues-

I always loved doing art, cherished natured and never stopped learning new techniques of art since childhood. There are many kinds of art in this world which never ceases to amaze me and somehow came to know about resin art during lockdown. The more I learnt about it, the more challenging I felt and hence it grabbed my interest.

About my business: Mixing the chemical with hardener gave me vibes of chemistry hence it was fun for me and totally enjoyed doing it. Slowly I turned it into business and amazed to see such good response from the people as we curate your ideas into reality and is one of the best gifting options to your loved ones.

As a kid, I always loved preserving flowers but somehow, I had to throw them away and little did I know, this form of art can preserve flowers which hold beautiful memories can be preserved for life time.

The best part of resin is, it has glass like look but its unbreakable, highly durable.

What I make:

I make wide range of products and the categories are listed below

- Home decor
- Jewellery
- Photo frames
- Wedding/couple frames
- Phone accessories
- Car hangings etc

And all of them are customisable according to the requirements of the clients.

My current specialization is in preservation of 'real flowers' till eternity.

Home décor:

Resin hues gives you more reason to decorate or even redecorate your space.

We specialize in resin home décor that will add pop of colour and make your space look fun and chic at the same time.

We are talking about clocks, trays, Arabic decor, cake stands, t light holders, flower vase etc

Mourning keepsake:

We preserve the memories of lost loved ones such as hair, ashes, fabrics and that need not be just for humans, we even preserve for animals.

Here we preserved dog's hair into pendant and keychain so that they can cherish their beloved dog's memories.

Dog's hair preserved in a pendant.

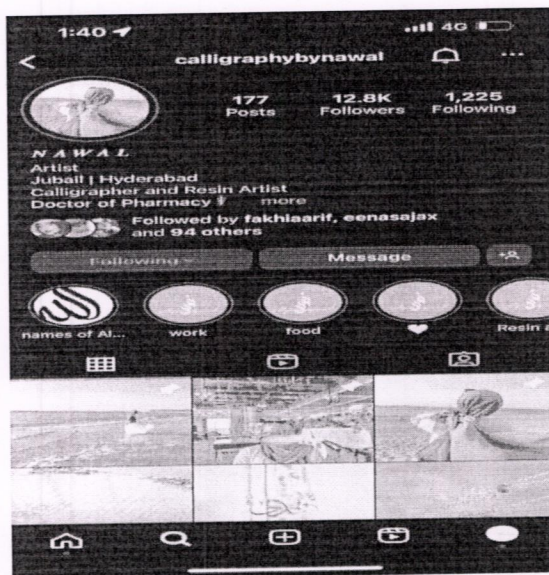

Calligraphy by Sana-

Runs a business that sells customised necklaces and resin art including resin invites, bookmarks and trays

Calligraphy by Nawal-

Runs a business that sells customised necklaces and resin art including resin invites, bookmarks and trays.

Mehndi by Sophiya-

A startup that specialises in bridal henna, arabic henna and qafeef henna.

Beauty journal with Aliya-

I operate as a makeup artist under the name 'beautyjournalwithaliya'. It's the name I use for my professional portfolio and social media accounts, where I showcase my work and connect with clients.

About College

- Sultan-ul-Uloom College of Pharmacy was established in the year 1997 under the aegis of Sultan-ul-Uloom Education Society.
- Approved by Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE), and affiliated to Jawaharlal Nehru Technological University, Hyderabad (JNTUH).
- B. Pharm program is accredited by National Board of Accreditation (NBA)
- Recognized by the University Grants Commission (UGC) under section 2(f) & 12(B) of the UGC Act, 1956.
- 8 University Gold Medallists.
- The focus has been on quality education and continuous improvement. The institution has continued to exhibit strong academic performance through efforts of qualified faculty, trained supporting staff, need based capital investment on sophisticated lab equipment and above all the unflinching support by the Management of Sultan-ul-Uloom Education Society.
- The multidimensional efforts provide a strong momentum for a secure future in the competitive educational sector.
- The teaching and non-teaching associates have demonstrated teamwork in carrying innovations to upgrade the standard of quality improvement in the areas of Pharmacy Education.
- In order to inculcate a responsible attitude towards preserving the environment and to impart knowledge about Green practices, the 'Enrichment Programs' has been introduced. It comprises **Swachh Bharat Abhiyan, Unnat Bharat Abhiyan , Jal Shakti Abhiyan ,NSS ,MGNCRE.**

About your association with MGNCRE(to be written by principal only)

Sultan-ul-Uloom College of Pharmacy has established VENTEL, SES REC, REDC cell under Mahatma Gandhi National Council of Rural Education, Department of Higher Education, Ministry of Education Government of India with a mission to inculcate Social Entrepreneurship among students in Rural India. The institution has framed the VENTEL action plan, SES REC action plan and REDC action plan for improving facilities in the campus and the community and adopted villages for sanitation and hygiene, waste management, water management, energy conservation and greenery. Awareness on social entrepreneurship provided for students and mentored by the faculty members. The practice of mentoring social responsibility, swachhta and care for environment and resources has been adopted.

Working of

- Vocational Education-Nai Talim-Experiential Learning (VENTEL)
- Social Entrepreneurship, Swachhta and Rural Engagement (SESRE)
- Rural Entrepreneurship Development (REDC)

About

Vocational Education-Nai Talim-Experiential Learning (VENTEL)

Sultan-ul-Uloom College of Pharmacy aims at developing a zest of self-employment among the rural youth by providing them skill training in various activities. VENTEL or Vocational Education Nai Talim Experiential Learning is the program of Mahatma Gandhi National Council for Rural Education that plays the leading role in promoting Vocational Education, Nai Talim, Experiential Learning in rural India. It essentially emphasizes on the promotion of training of the productive work with economic value.

Activities

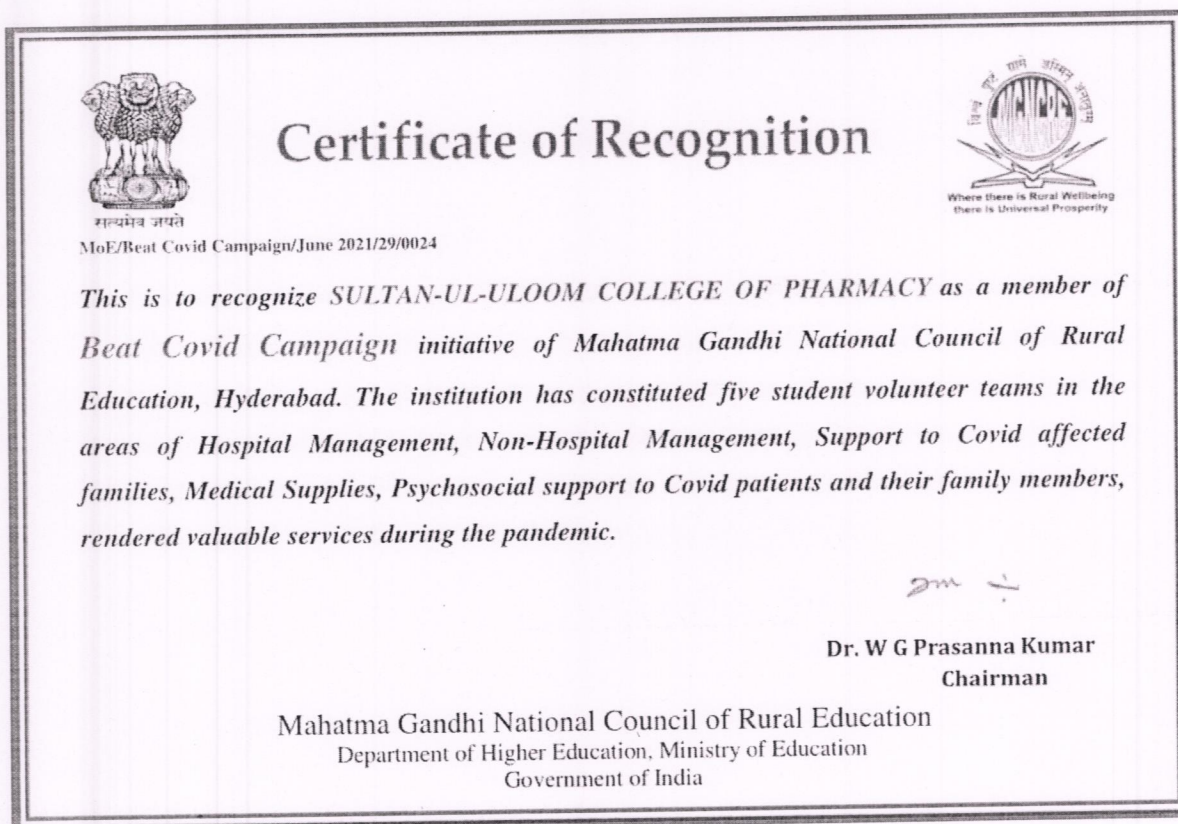

THE POWER OF WORDS, AT YOUR SERVICE!

Social Entrepreneurship, Swachhta & Rural Engagement Cell (SES – REC)

Social Entrepreneurship, Swachhta & Rural Engagement Cell (SES – REC) of **Sultan-ul-Uloom College of Pharmacy** was formed under the direction of Ministry of Education, Government of India through Mahatma Gandhi National Council of Rural Education (MGNCRE), Hyderabad. The aim of this Cell is to promote rural social entrepreneurship and community engagement activities among the students and public. There SES-REC takes care of Sanitation & Hygiene, Waste Management, Water

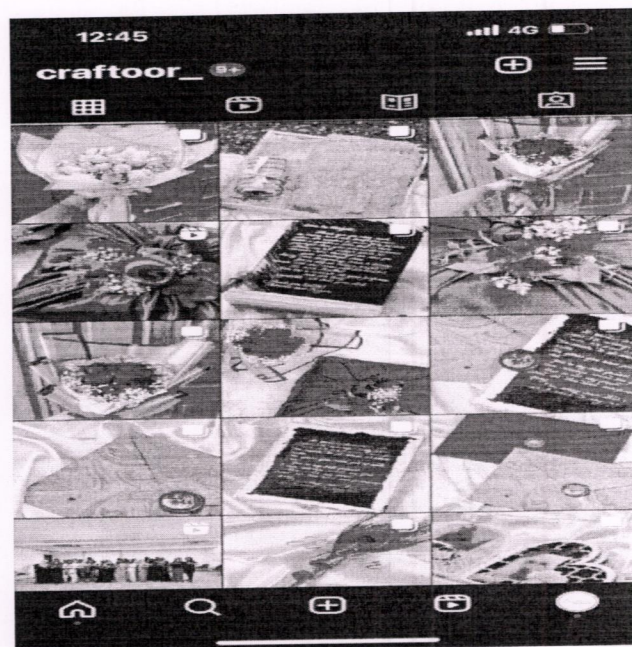

Management, Energy Management and Greenery. During the Corona lockdown period, SES-REC along with MGNCRE organized "BEAT COVID CAMPAIGN" from 11th to 30th June 2021 in which our students have extended their volunteer activity through social media platform and rendered their service during COVID vaccination camp / food distribution for needy people.

RURAL ENTREPRENEURSHIP DEVELOPMENT CELL (REDC)

Rural Entrepreneurship Development is predominant for the balanced economic growth of the Nation. The Rural Entrepreneurship Development Cell (REDC) aims to encourage student community to take up rural entrepreneurship as their career. **Sultan –ul-Uloom College of Pharmacy** motivates the students to explore untapped rural resources and opportunities available in the zone. It also nurtures the students to become successful rural entrepreneurs for the balanced regional development. The Institution has constituted Rural Entrepreneurship Development Cell in their campus.

MGNCRE Sustainability Indicators, Points and Ranking

1. Green Cover on Campus

Sultan-ul-Uloom College of Pharmacy has taken initiatives to promote greenery in order to inculcate a responsible attitude towards preserving the environment and to impart knowledge about Green practices.

HARITHA HARAM

“Haritha Haram” programme was organized in Sultan-ul-Uloom College of Pharmacy on to support the initiative by Government of Telangana to increase the green coverage. Variety of saplings are planted in college premises and the event emphasized on the importance of planting saplings and their maintenance. The teaching and non-teaching staff and students of B.Pharmacy, M.Pharmacy and Pharm-D actively participated and planted various types of plant saplings. The program was further coordinated by the NSS officer and NSS coordinators.

2. Surface Water Harvesting

WATER CONSERVATION

Surface Water Harvesting

1. Rain water harvesting structures and utilization in the campus

The college campus has three rain water harvesting pits which are well maintained and registered by the local Municipal Authorities. These rain water harvesting pits are planned to divert the rain water from roofs of different block to these pits.

These pits are located at:

1. PIT- 1: Situated in the western side of campus, adjacent to Workshops (Block III) covering the entire area of Civil and Mechanical Engineering laboratories, open land near Gate 2 of the campus etc. The approximate catchment area of this rain water harvesting pit is about 8 acre.
The size of this pit 10' x 10' x 7'.
2. PIT – 2: Situated in the eastern side of the campus adjacent to Football Ground covering a catchment area of about 4 acre.
The size of this pit 10' x 7' x 7
3. PIT - 3: Behind MBA building in the south- eastern side of the campus covering a catchment area of about 4 acre.
4. The size of this pit 10' x 7' x 7.

• **Borewell**

In addition to the rain harvesting pits the campus has two old wells maintained and designed to drill up groundwater level. The water from these wells is utilized for watering the plants and trees and dispensed to the required areas in the campus.

3. Rooftop Water Harvesting

1. Construction of tanks and bunds

The sump pit is created with a gravel base dug into the lowest part of the ground. As water enters the pit, an activator or sensor on the sump pump turns the sump pump on automatically. It moves the water away through pipes

2. Maintenance of water bodies and distribution system in the campus

Water bodies are maintained quarterly and annually and distribution system is managed by campus manager.

4. Rooftop Solar System

The Institution is conscious about energy conservation and creates awareness to minimize energy consumption. Rooftop Solar Panel helps to conserve energy

All the below steps show the commitment of college towards energy consumption.

1. Implementing energy saving techniques to ensure that the lights and fans are switched off by floor attenders and staff after completion of the last lecture of the day Effect.
2. Classrooms are made with sufficient cross ventilation and light so that the use of electricity can be minimized.
3. More usage of CFL and LED should be done for energy consumption.
4. Electrical devices are switched off when not in use.
5. Master Switches for each Room to shut down power of entire room when not in use.
6. Minor steps like shutting down computers when not in use, turning off computer monitors or other electric appliances at the end of the day etc. were practiced.
7. Students are directed to use staircase for minimum floors to minimize the energy consumption by the use of lift.

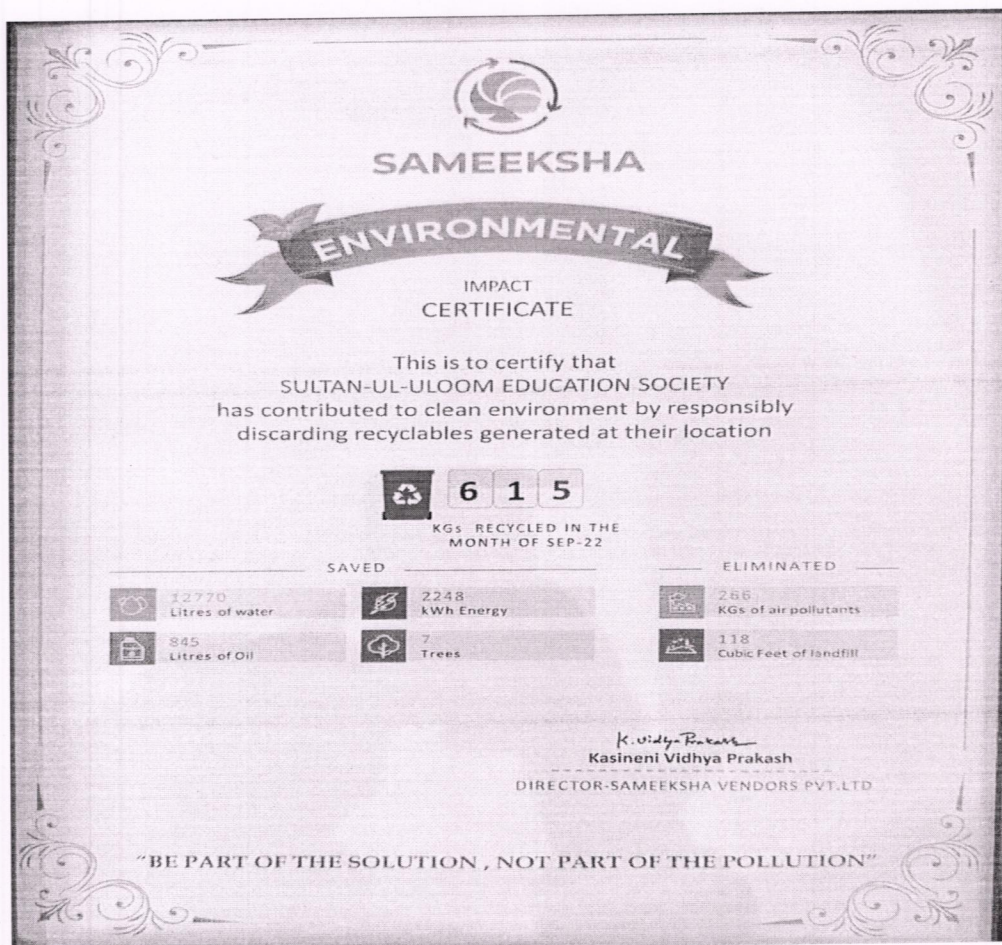

5. Waste Management

The campus generates waste from various sources in campus like the buildings of the institute and canteens. This waste is treated through the agencies such as ITC and GHMC for recycling. Waste management is an important feature and all efforts are directed towards adopting environment friendly practices in managing solid waste, liquid waste, e-waste and bio-waste. Management of waste material in the institute is pursued on the principal of 3RRR i.e. Reduce, Re-use, Recycle.

Solid Waste Management

- The solid waste generated in the campus can be segregated into dry waste (inorganic) and wet waste (organic). Primary collection is done through dust bins placed throughout the campus at strategically convenient locations and the secondary collection is done by the Municipal Corporation vehicle which visits the campus.
- Throwing of waste in open spaces is strictly prohibited and usage of plastic bags is discouraged within the premises of the College.
- Paper waste is generated in large quantities and the same is periodically discarded through scrap dealers for recycling.

Liquid Waste Management

- The liquid waste generated from laboratories, cleaning, washing, housekeeping and disinfecting activities is directed through proper channels to be discharged in to the sewerage system which is connected to the city underground sewerage system of the Water Supply and Sewerage Board.
- The grey water from canteen, wash area is directed to a recycling sump and the same is used for gardening purpose.

Biomedical Waste Management

- The College takes efforts in minimizing the production and proper disposal of bio-hazardous wastes. The college has a contract with Maradi Agency for bio medical waste disposal.

E-Waste Management

- The various components of E-waste generated in the campus consists of computer systems, electronic components used in the laboratories, printers etc.
- Outdated computer systems are repaired and updated.
- Computer systems which are damaged and not in working condition, electrical and electronic instruments and components are disposed through E-Waste scarp dealers by adopting a transparent system.

Hazardous Chemicals Waste Management

- Fuming chambers are provided in the laboratories for the proper disposal of hazardous fumes. Concentrated and dilute acids and alkalis are washed down drains with excess water.
- Generally the waste from microbiology labs, chemistry departments and other labs are carefully discarded through proper channels where the sewage system has been done in eco-friendly manner.

SSHG SALES COUNTER ESTABLISHED AND OPERATING IN CAMPUS

The Cakesmith (Fundraiser)

Student Name: Rana Siddiqui (Pharm.D)

The Cakesmith is a cake artistry business that specializes in creating unique and personalized cakes for various occasions, such as weddings and birthdays. I take pride in my ability to create bespoke designs that reflect the client's specific tastes and preferences.

A couple of days ago, I hosted a charity cake auction on my page to raise money as aid for the recent earthquake in Turkey. I used the platform to spread awareness about the cause and encouraged my followers to bid on the cake through the comments section.

It ran for 6 hours, throughout which, I kept the participants updated about the highest bid through our page. In the end, the charity cake auction was a huge success, with a total of 1,00,000/- raised through the bids and generous donations made by everyone. I arranged for the funds to be donated through the Turkish consulate to ensure that they reached those who needed them the most.

This charity cake auction not only raised funds for a good cause but also brought people together and highlighted the power of community support in times of crisis.

You can see the highlights of similar auctions we hosted in the past through this link :-

Cookie Monster

Runs a dessert business since 2019, specializing in brownies and cookies. The business is run by a passionate student who believes that there should always be a balance between our work and personal lives. Cookie Monster was one of the few businesses that operated throughout the lockdown and was there to help all individuals get through those tough times with their food cravings. The best speciality of Cookie Monster is that it sells desserts such as brownies, Cookies and Nutella jars. Each of these desserts are handpicked and made with the best ingredients and the owner ensures that only the best items are delivered to your doorstep. she also specialises in cakes and provides brownie slabs for special occasions. This business strives to deliver the best quality products and ensures customer satisfaction. We have sold over 500 orders that have reached people in Hyderabad, different cities of India and the desserts have also travelled to destinations abroad. Try them today!

Brownies by Maryum

Brownies by Maryum, a home-based bake shop has been serving healthy brownies and desserts in Hyderabad since February 21. We believe in offering a healthy alternative of our customers' favourite desserts.

Brownies are the best dessert one can have, and it being healthy makes it a guilt free indulgence. I for one do not have a sweet tooth but, anything made of chocolate is my only weakness. So, when I was able to bake these healthy brownies, it was the best thing and I wanted others out there to have it too. We at brownies by Maryum offer a wide range of options, gluten-free, sugar-free & and customisable non-gluten free delicacies too. Our best-sellers are chocolate fudge and walnut fudge brownies, brownie cupcakes and red-velvet truffles.

We sell customisable brownie slabs, cupcakes for any kind of celebration and season's special chocolate dipped strawberries too. Looking forward to experimenting with a few more healthy recipes and keeping our customers happy.

Hafway Through –

Hello and welcome to Hafway Through! We are a freelance writing service that helps businesses and individuals bring their unique stories to life. Our team of skilled writers is dedicated to creating compelling narratives that captivate your audience and bring your vision to life. Our approach is personalized and tailored to meet the specific needs and goals of each of our clients. If you are looking for a writing solution that will help you stand out, reach your audience, and achieve your goals, look no further than Hafway Through. Feel free to reach out to us to learn more about our services and how we can help you achieve your visions. The company aims to help businesses become more unique and also ensures that they are able to provide the best solutions for their clients by using the most standardized and competitive English possible. We also provide trainings services, interviews and more. With Hafway Through, expressing yourself is ten times easier. The owner of the company has been working in this field for over 5 years with experience working with more than eighty clients, who are based internationally and also in India. The owner has also worked with Tedx events and thus believes that with their experience and your dream, they can help you cultivate an image that deems your position worthwhile in this competitive world. We must remember that first impressions are the most lasting, and we are here to ensure that yours resonates forever.

Let's get started today!

THE POWER OF WORDS, AT YOUR SERVICE!

Join us today!

PharmaVerse –

The PharmaVerse platform is designed to bring convenience and accessibility to those in need of dermatological and cosmetic products. At pharmaverse.app, we understand the importance of having access to skincare products that cater to our individual needs. That is why we've made it our mission to bring a wide range of products right to your doorstep. We are always looking for ways to improve our platform and make your shopping experience even better. That is why we're currently in talks with doctors to launch a consultation model. This new feature will allow you to connect with a dermatologist or cosmetologist who can provide personalized advice and recommendations based on your skin type and concerns.

Our platform is user-friendly and easy to navigate, so you can find the products you need in no time. And with our quick and reliable delivery, you will not have to wait long to start enjoying the benefits of your new skincare routine.

At pharma verse. app, we believe in the power of good skincare to improve our confidence and overall well-being. That is why we are dedicated to making it easy and accessible for everyone. So why wait? Start browsing our selection of dermatological and cosmetic products today and experience the convenience of pharma verse app for yourself!

The image shows a promotional banner for the PharmaVerse app. At the top left, there is a small diamond icon and the text "PHARMAVERSE.APP". At the top right, there are icons for search, heart, user profile, and a shopping cart with a zero count. The main banner features a woman smiling and applying cream to her face. The text "Derma products at your doorstep!" is prominently displayed in a serif font, with a "Shop now" button below it. Below the main banner, there are three smaller product category tiles: "Acne" with a "View all" link, "Fungal infections" with a "View all" link, and "Bacterial infections" with a "View all" link. Each tile includes a small image related to the skin condition.

Sasha Resin Store –

Sasha resin store isn't just a Start-up it is a venture of experimenting, designing, fabricating and creating ornamental articles using Epoxy resin. My start up like most Began during Covid-19 pandemic times. It initially accelerated as a hobby of exploring the fluid art taking various shapes and forms of the Moulds that the resin is poured into. I sell aesthetic Little keychains, pop-socket, coasters , phone covers as well as big Frames, serving trays. Most Sod item Is the wedding Name stand. Speciality of My start up is Customisation of Colours, Glitters, Names, dates, events. Customers prefer Gifting their friends and relatives my handmade, intricately designed Name STANDS which can be perfect for keeping as show piece or can be hanged on wall like any other photo frames. I customise articles according to the events in which the customer desires to give it as gift . My products reach is within the city(Hyderabad) as well as out of the city . I've sold my Wedding name frames In Bangalore as well as Mumbai. Being A small start-up my product prices are way more reasonable than the one's sold online. So, my Start-up products are budget friendly. I aim to upgrade my Resin Small business to a well flourished business. I have hence even maintained a business profile on Instagram @sasha_resinstore.

Genpharma –

The idea is simple. Popularize the usage of generic medicine. Many people are still unaware of the concept of generic medicine and if they're it is considered of lower quality than the branded. Genpharma will work on debunking this myth and popularize the usage of generic medicine. I conducted a small experiment involving people near my house including my own family. They were asked questions:

1. What is the monthly expense of drugs in household
2. Would you be satisfied with lower cost products
3. Will you opt for generic products

Out of 50 only 1 opted to go for generic drugs.

In the end the observation was that

- People wanted cheaper rates for the same drug from the same company.
- Factors responsible were
- .Packaging quality
- .The location of generic stores
- .Doctors don't prescribe
- .Not aware of any such thing

Hence the final conclusion drives here that generic medicine has a vast market, if propagated properly this will turn out to be a game changer.

Currently, there are companies working on this but their reachability is restricted.

GenPharma

MTBR Co.

We provide billing paper rolls to restaurants, departmental stores, and pharmacies. The rolls are prepared and dispatched in accordance with the client's requirements.

The paper material is bought from a manufacturing unit in Aurangabad, Maharashtra since the price of paper is less than that in Hyderabad TS and the package is received by rail transport.

MTBR Co handles storage, marketing, and distribution. We have our own storage facility, the maintenance cost of which is also handled by us. Currently, the clients that we have are all acquired through in-person/non-virtual means but by the end of FY2023 we plan to begin social media marketing to attract the sophisticated customers.

Started in 2020. Albeit the business took a hit in the Covid times the company strengthened its ground in late 2021.

Hyderabadi Flavours-

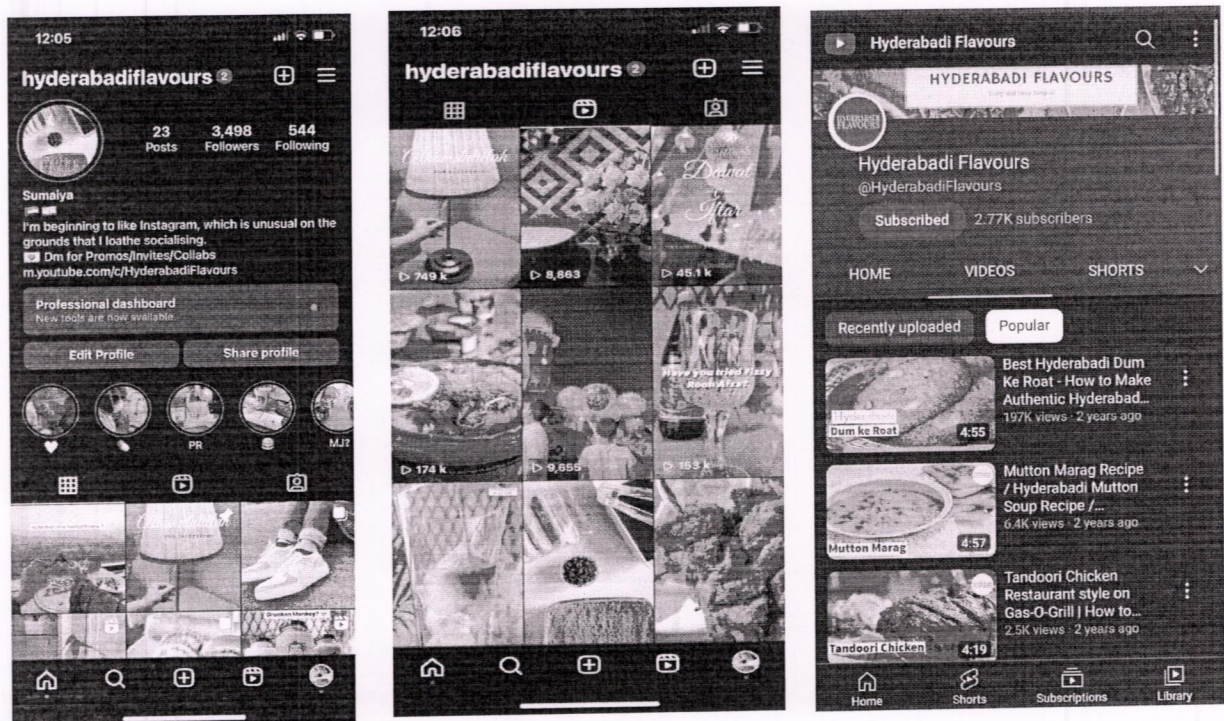

My journey towards creating a platform where I could share my own recipes as well reviewing and rating restaurants and café's began with the zeal to make use of all the fields of my expertise during the lockdown.

I had previously been a cinematographer and editor for one of the Top 30 films in the Children's International Film Festival in Dubai. The lockdown felt like the perfect time to make use of my love for editing and cooking. In just a few months my subscribers grew exponentially and the YouTube channel got monetised, I get to earn several dollars with each video posted which differs by the number of views it gets.

Meanwhile other companies like Domino's, Pizza Hut and several Café's, Bakeries and Restaurants all around Hyderabad began inviting me to capture or promote their place. Subhan Bakery, Slice'd Hyderabad and Café Bahar are just one of those many places that I had been invited to and had the opportunity to capture, rate and promote as a content creator.

Once the page began doing even better, Zomato had hired me as a "Zomato Influencer" where I was provided with the opportunity to create content for even more places in Hyderabad, This allowed me to bring the best information to the public in the form of pictures and reels about the Trending café's and the best places to dine with no bias while rating them.

After getting close to around 3.49K followers on my page, by the grace of God I have been blessed with a platform where I can post relevant social issues to increase awareness or gather help for various problems such as gathering packages to be sent to the victims of the recent Devastating earthquakes in Turkey.

The Dulcis Whisk-

I've been running this business since 2018. I am mainly self taught but did a few baking and cake decorating courses when I was first starting out to gain some confidence. I'm extremely passionate about baking, I love that (almost) every cake is different which presents new challenges and therefore keeps it exciting!

I couldn't imagine doing anything different! It allows me to fulfil my creativity as well as my love of baking.

Samar Shaked

Loops of thread-

Loops of Thread is a Hand embroidery business which creates art in the form of wall hanging hoops / glass frames. Various other items like a Centre table decor, embroidery on your bags, shirts, jackets, pants and hats.

In search of a new hobby I discovered my passion for Embroidery.

I joined a summer camp when I was 14 years old where I got to learn basic stitching techniques. By June of 2020, I improved quite a bit by practicing. As embroidery is a skill perfected only through practice, It was quite tough for people to see it as modern art at first - as it was done by elder group of people in our household.

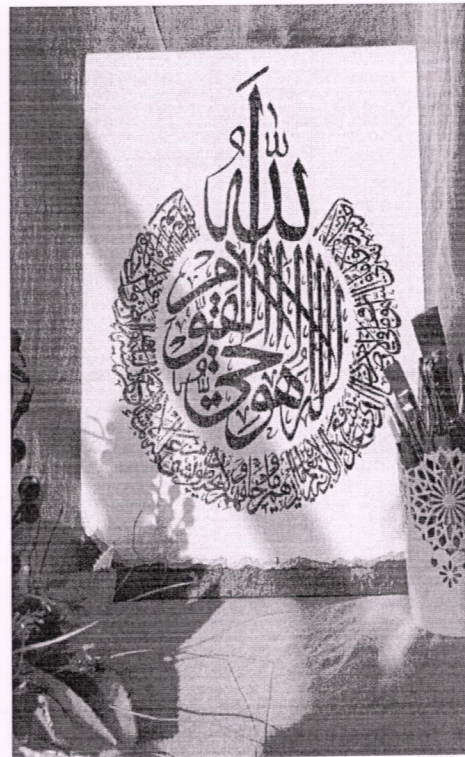

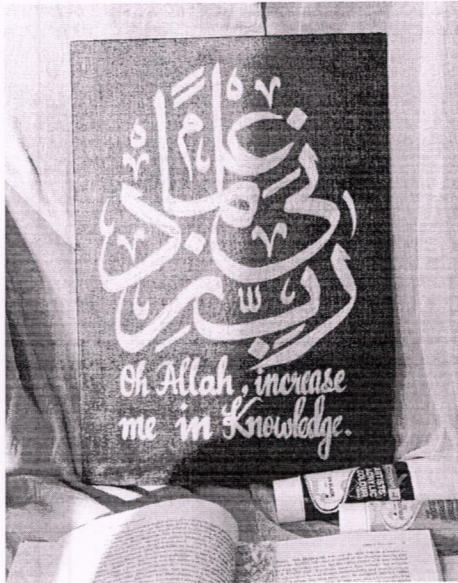

Not many people are aware of how beautiful, creative, time dependent, and inventive it can get with every piece you create. I get a lot of "Why are you into this? This seems boring, a waste of time, something a granny does,etc."

Embroidery is quite under-appreciated, it needs to be recognised more. It is more than a hobby. It is unconventional. It is expressive. It is original.

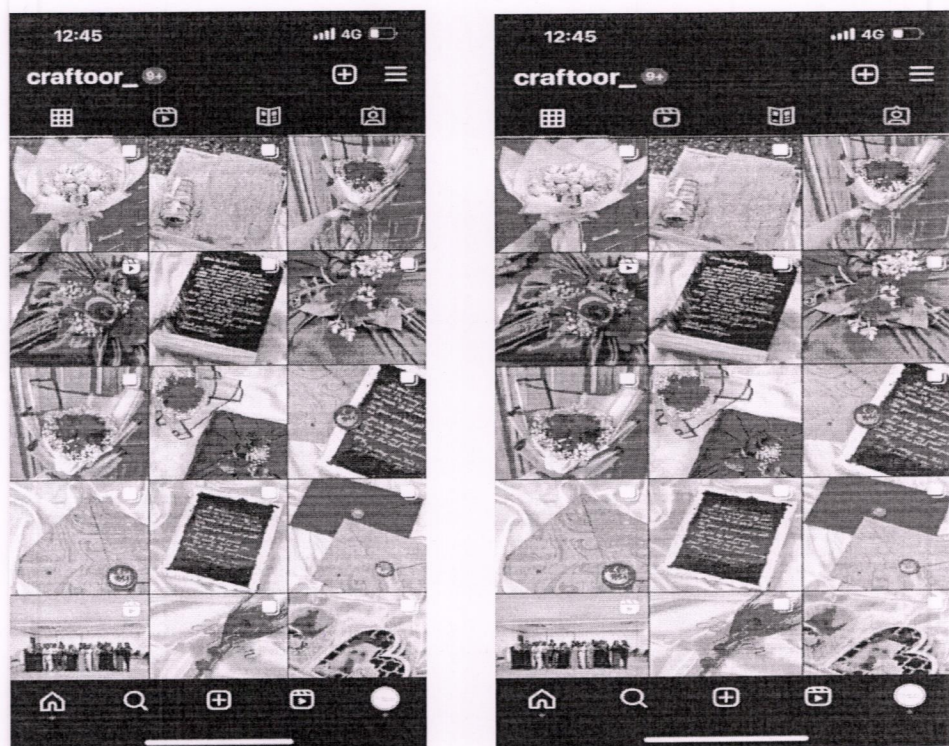

Hattalik.sedra-

My passion and enthusiasm for calligraphy began during a visit to a museum in Madinah in 2019. Later i learnt this art from a renowned ustaad. My journey from using a pen to using a traditional qalam has been very incredible. Initially I started it as a hobby, shared a few of my works on social media where people showed immense love and since then i have been doing this as a small business. I make customised arabic calligraphy artwork my instagram is @hattatlik.sedra do check out my work.

Craftoor-

Founder of craftoor (Instagram @craftoor_), and co- founder of Mashaal woman's safety program , I got the opportunity as an entrepreneur back in 2020 when my college organized fest and I had to put up a stall that's when I know what entrepreneurship is. Later in the year 2022 I was selected as a campus lead of EdVenturepark which led me an opportunity to organise self defense program for girls & meanwhile I was working on a new organization Mashaal which is a womens safety program

Ayako-

I go by my artist name Ayako on social media platforms. I create digital art, graphic designs and logos for small businesses. I also have an online store where I internationally sell art stickers and graphic products like T-shirts, sweatshirts, hoodies and tote bags designed by me

Resin hues-

I always loved doing art, cherished nature and never stopped learning new techniques of art since childhood. There are many kinds of art in this world which never ceases to amaze me and somehow came to know about resin art during lockdown. The more I learnt about it, the more challenging I felt and hence it grabbed my interest.

About my business: Mixing the chemical with hardener gave me vibes of chemistry hence it was fun for me and totally enjoyed doing it. Slowly I turned it into business and amazed to see such good response from the people as we curate your ideas into reality and is one of the best gifting options to your loved ones.

As a kid, I always loved preserving flowers but somehow, I had to throw them away and little did I know, this form of art can preserve flowers which hold beautiful memories can be preserved for life time.

The best part of resin is, it has glass like look but its unbreakable, highly durable.

What I make:

I make wide range of products and the categories are listed below

- Home decor
- Jewellery
- Photo frames
- Wedding/couple frames
- Phone accessories
- Car hangings etc

And all of them are customisable according to the requirements of the clients.

My current specialization is in preservation of 'real flowers' till eternity.

Home décor:

Resin hues gives you more reason to decorate or even redecorate your space.

We specialize in resin home décor that will add pop of colour and make your space look fun and chic at the same time.

We are talking about clocks, trays, Arabic decor, cake stands, t light holders, flower vase etc

Jewellery:

We also preserve flowers in jewellery like rings, bracelets, pendants, ear rings and are customizable too.

Bloom keepsake:

We preserve flowers that hold beautiful and important memories till eternity.

We did preserve a lot of flowers from events like proposal bouquets, wedding garlands, engagements flowers, birthday bouquets and a lot more such.

We preserved flowers such as roses, orchids, sunflowers.

Along with flowers we also preserve photos that captured essence of those moments.

Mourning keepsake:

We preserve the memories of lost loved ones such as hair, ashes, fabrics and that need not be just for humans, we even preserve for animals.

Here we preserved dog's hair into pendant and keychain so that they can cherish their beloved dog's memories.

Dog's hair preserved in a pendant.

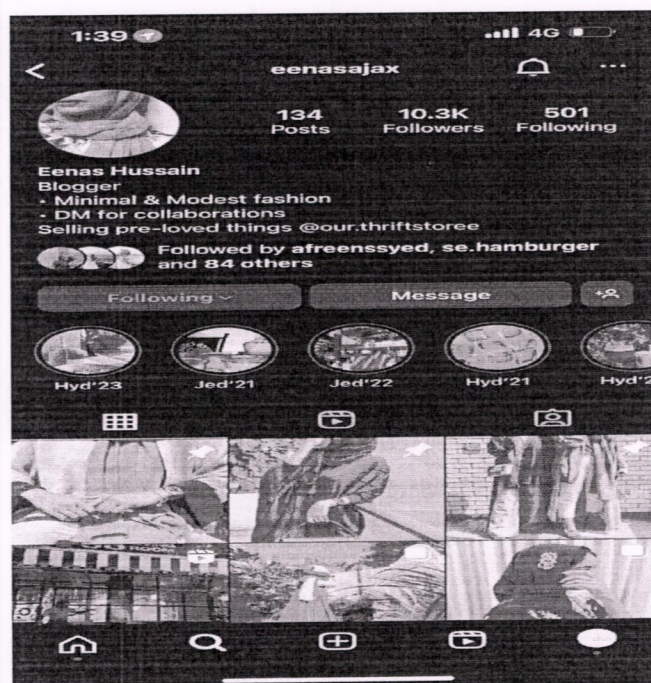

Alina mustafa couture-

An exclusive clothing brand selling customised traditional outfits.

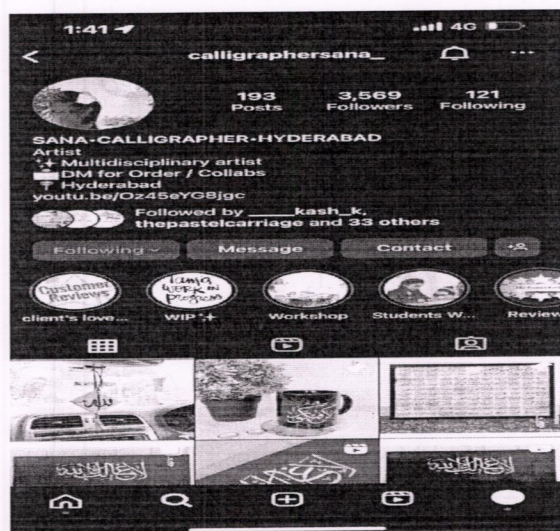

Eenas Blogger-

A minimal and modest fashion blogger that runs a page on instagram with over 10,000 followers and collaborates with various modest clothing brands.

Calligraphy by Sana-

Runs a business that sells customised necklaces and resin art including resin invites, bookmarks and trays

Calligraphy by Nawal-

Runs a business that sells customised necklaces and resin art including resin invites, bookmarks and trays.

Artisan Alley-

A startup that sells artwork and customised phone cases.

AliyaRazvi

Mehndi by Sophiya-

A startup that specialises in bridal henna, arabic henna and qafeef henna.

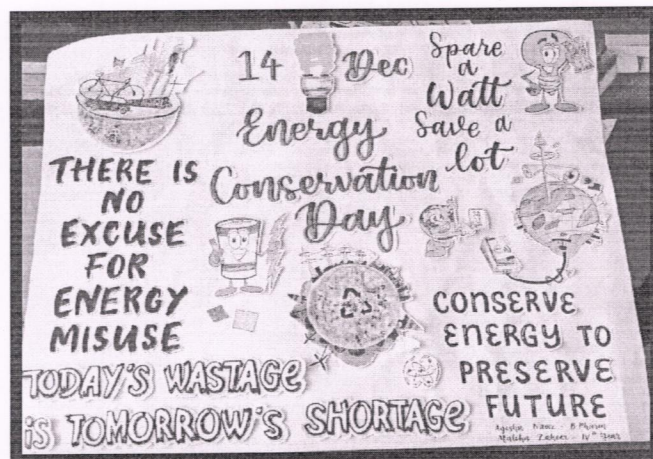

Beauty journal with Aliya-

I operate as a makeup artist under the name 'beautyjournalwithaliya'. It's the name I use for my professional portfolio and social media accounts, where I showcase my work and connect with clients.

STUDENTS SELF GOVERED ACTIVITIES ON THE CAMPUS

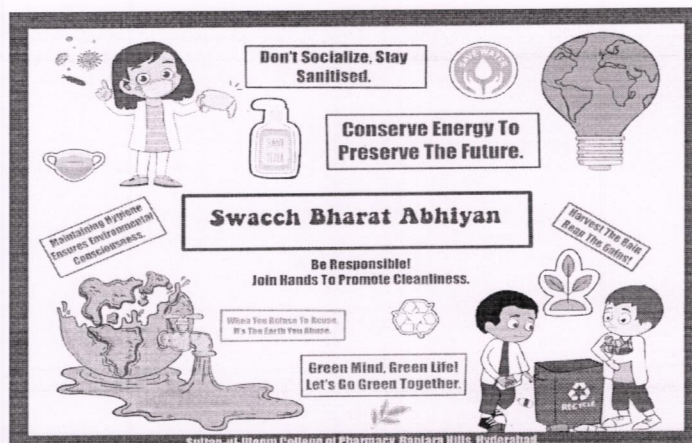

Energy Conservation Is The Need Of The Hour

Energy conservation is a big part of sustainability and sustainable development. It is a conscious decision of using less energy. The Sultan-ul-Uloom college of Pharmacy, Hyderabad successfully conduct a poster presentation competition on “National Energy Conservation Day” on 14th December 2022 along with students and staff to vocalize the importance of energy conservation. The objective is to drive mass awareness about the importance of energy efficiency and conservation. All the students have taken part actively and they have been motivated to come up with innovative ideas to save energy more efficiently. Through posters, students depicted various good habits to save electricity and talked about measures to be taken up to save energy more efficiently. The students conveyed a message for energy conservation through their ideas and creative minds. The great insights presented by students were regarding conservation of the renewable resources. It inculcates the importance of energy conservation amongst students and society.

Clean India Programme

Sultan-ul-Uloom College of Pharmacy, Hyderabad successfully conducted “Clean India” programme organized to create an overall awareness regarding the collection, reuse, recycling and segregation of waste, mainly single use plastic waste and traditional water resources. We appreciate the ministry’s sincere efforts behind this programme which has given us a chance to participate in the vision of ‘Clean India’. To start with, our team conducted few brainstorming and idea-pooling sessions to draft a complete schedule of activities. So, that the idea of ‘Clean India’ gets delivered in a more creative manner.

➤ Sanitization & Hygiene Awareness

Talked on the importance of hygiene and its dire need in the backdrop of the pandemic COVID-19.

➤ No to Plastic

They demonstrated the cut-down usage of plastic bottles. They also suggested alternatives to plastic usage.

➤ Proper Waste Disposal

A special drive was conducted to ensure proper waste disposal and waste management.

Online Poster Making Competition on “World Entrepreneurs Day”

On the occasion of World Entrepreneurs Day, **Sultan-ul-Uloom College of Pharmacy** had organized an online Poster Making Competition on the occasion of “World Entrepreneur Day”. The purpose of the event is to create awareness for entrepreneurship, innovation and leadership throughout the world. WED is the perfect day to celebrate the people who start a business alone. It gives a great opportunity to push philanthropic, social and ethical business practices via conferences, awards and initiatives. Many students of Sultan ul Uloom College of pharmacy participated in entrepreneurs' day by making attractive e- posters and presenting them.

They explained the purpose and importance of entrepreneurship in e- posters which included:

- Explaining the risk of entrepreneurship and how to tackle them.
- Entrepreneurship needs a strong team which includes well educated and trained members
- Explained the wide variety of opportunities in entrepreneurship.
- The relationship of entrepreneurs with customers.
- The startup to become a successful entrepreneur.
- How to avoid procrastination towards starting a new initiative.

Entrepreneurship needs passion which is immense in youth, hence our college students provided important message to the youth to startup as an entrepreneur along with education.

Rashtriya Ekta Diwas

In keeping with the tradition, Sultan-ul-Uloom College of Pharmacy celebrated the National Unity Day on 30th October, 2022. Many activities were conducted across all the sections. As an effort to build the bond of cohesion, various activities are conducted to celebrate Rashtriya Ekta Diwas. The teachers and students actively participated and took an oath to preserve the unity, integrity and security of the nation in the spirit of unification of the country. This was followed by Run for Unity headed by the students of sports department. Thereafter students also engaged themselves in reading, writing and discussing about the life history and contribution of Sardar Vallabhbhai Patel towards making of India. The occasion provides us an opportunity to re-affirm the inherent strength and resilience of our nation to withstand the actual and potential threats to the unity, integrity and security of our country. The event emphasized on team-work and encouraged students to work towards the unity of the country and take care of their wellbeing.

At last a pledge was taken by one and all present in the college.

“Health Awareness- A Must!” Free Medical Camp

“Health Awareness Free Medical Camp” was organized by **Sultan-ul-Uloom College of Pharmacy** on National Pharmacovigilance Day. The main motive of this camp was to provide health awareness, cost-free consultation and drug information services to the patients and emphasize the need to maintain hygiene. Various health issues cardiac disorders, diabetes and other ailments were dealt by a team of physician with proper diagnosis, medication therapy and diet plans. The doctors also discussed the preventive measure to be taken against various infections

Drug Information Centre

The students helped in providing following services:

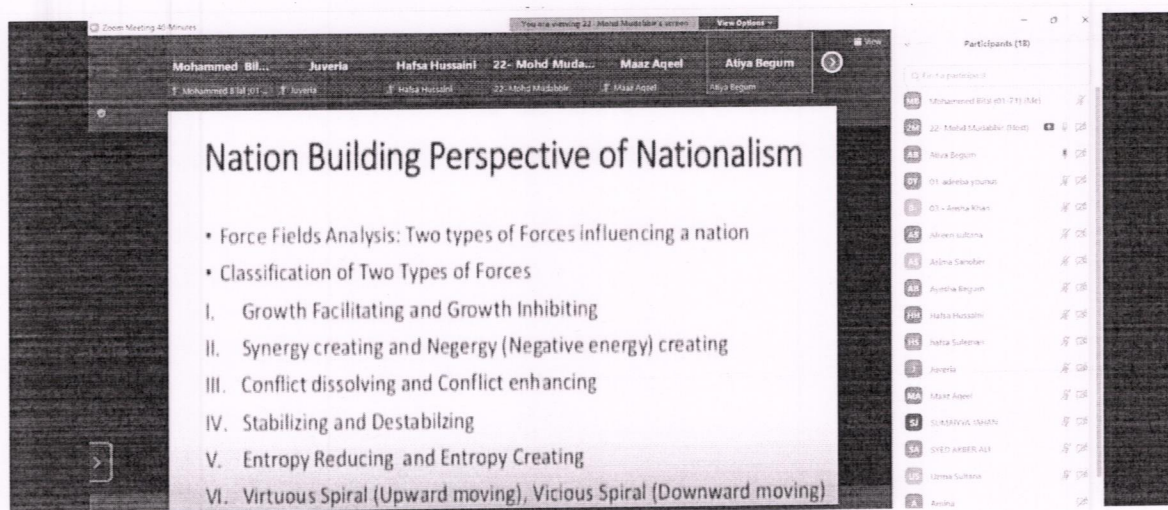

- Free Health Check-up
- Patient counseling
- Dispensing medications
- Distributing masks, sanitizers and sanitary pads, multivitamins and supplements.
- They sensitized the public regarding vaccination, alcohol abuse, and tobacco misuse.

Webinar on “India 2.0 Vision for India in 2047- Resolution For Future”

Sultan-ul-uloom College of Pharmacy had successfully conducted a webinar on “India 2.0 Vision for India in 2047- Resolution For Future” with the motive to Dare and Dream India of 2047. The webinar was started at 11 AM. The eminent keynote speaker talked about the glorious history of India’s culture and achievements and also on various projects that can be done in order to develop the country and about their goals for the country to achieve which includes:

- A corruption-free India.
- No hatred in the name of caste and religion in the country.
- Every girl who walks the streets of India to be absolutely safe.
- Co-operative farming
- Nationalization of Education (One Country one Education system).

This webinar attempts to look at the resolutions that will help transform India into ‘The India of our dreams’ by 2047. Resolutions imply targeted goals that need to be addressed and fulfilled within a particular span of time. Similarly, while narrowing in on how we want to see India in 2047, it is important to make targets time bound, participatory and holistic. Our foremost target as a developing nation should be to work on economic fronts and making our economy stronger by bringing in some major reforms.

There can be many more such resolutions, for instance, improving the health-care system, increasing employment opportunities, preventing brain-drain, working extensively with our diaspora and involving them in India’s growth, enhancing both hard power and soft power tools for India’s advantage, increase India’s outreach on global platforms in all spheres be it foreign policy, fashion, food, culture etc. Each factor holds its own place in India of 2047

The session was concluded by keeping a dream of next twenty-five years, which will be extremely crucial not just for our country but also for us as citizens of how far we have made it. This should be the responsibility of every citizen. The journey might look tough but the destination promises to be rewarding. We will witness a country so powerful yet so united, a global power with roots anchored deep into the past.
