# **Showcase! The Success of Sustainability**

(SAP 2021-22 March Activity- Learning from each other)

## **Sustainable Campus Plan - 2021-22**

**NAME OF THE INSTITUTION: Sultan-ul-Uloom College of Pharmacy**

**DISTRICT: Hyderabad**

**STATE: Telangana**

### **➤ Introduction of the Institution**

#### **✦ Sultan-ul-Uloom College of Pharmacy, Hyderabad, Telangana.**

Sultan-ul-Uloom College of Pharmacy was established in the year 1997 under the aegis of Sultan-ul-Uloom Education Society. It is approved by Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE), and affiliated to Jawaharlal Nehru Technological University, Hyderabad (JNTUH). It is recognized by the University Grants Commission (UGC) under section 2(f) & 12(B) of the UGC Act, 1956. It has 8 University Gold Medallists. The institution focused on quality education and continuous improvement. The institution has continued to exhibit strong academic performance through efforts of qualified faculty, trained supporting staff, need based capital investment on sophisticated lab equipment and above all the unflinching support by the Management of Sultan-ul-Uloom Education Society.

### **➤ Solid and Liquid Waste Management in Campus**

The waste generated in the institution needs to be managed in a scientific manner in order to reduce adverse environmental impact. The most commonly handled waste is solid waste and liquid waste. Apart from these two categories of waste, the third important category is Biodegradable waste and E-waste. The concept of E-waste management is relatively new but it is equally important in view of the hazardous nature of the waste. The steps taken by the college towards management of each of the above types of waste are described below:

#### **✦ Solid waste management:**

Primary collection is done through dust bins placed throughout the campus at strategically convenient locations and the secondary collection is done by the Municipal Corporation vehicle which visits the campus every day. Throwing of waste in open spaces is strictly prohibited and usage of plastic bags is discouraged within the premises of the College.

#### ✦ **Liquid waste management:**

The liquid waste generated from laboratories, cleaning, washing, housekeeping and disinfecting activities is directed through proper channels to be discharged in to the sewerage system which is connected to the city underground sewerage system of the Water Supply and Sewerage Board. The grey water from canteen, wash area is directed to a recycling sump and the same is used for gardening purpose.

#### ✦ **Biomedical waste management:**

The College takes efforts in minimizing the production and proper disposal of bio-hazardous wastes. The college has a contract with biomedical waste management agencies for bio medical waste disposal services.

#### ✦ **E-waste management:**

The various components of E-waste generated in the campus consists of computer systems, electronic components used in the laboratories, printers etc. Outdated computer systems are repaired and updated. Computer systems which are damaged and not in working condition, electrical and electronic instruments and components are disposed through E-Waste scarp dealers by adopting a transparent system.

### ➤ **Campus Greenery**

The Institution has a team of horticulturist and gardeners that maintain 70% greenery and landscape of the campus. Different types of trees have been planted in and around the campus area. Sprinklers are used for watering the plants and wastewater from the sewage treatment plant is used in horticulture.

### ➤ **Energy Conservation**

- ✦ Implementing energy saving techniques to ensure that the lights and fans are switched off by floor attenders and staff after completion of the last lecture of the day.
- ✦ Classrooms are made with sufficient cross ventilation and light so that the use of electricity can be minimized.
- ✦ More usage of CFL and LED should be done for energy consumption.
- ✦ Electrical devices are switched off when not in use.
- ✦ Master Switches for each Room to shut down power of entire room when not in use .
- ✦ Minor steps like shutting down computers when not in use, turning off computer monitors or other electric appliances at the end of the day etc. were practiced.
- ✦ Students are directed to use staircase for minimum floors to minimize the energy consumption by the use of lift.

## ➤ Water Management

### ✦ Rain water harvesting structures and utilization in the campus

The college campus has three rain water harvesting pits which are well maintained and registered by the local Municipal Authorities. These rain water harvesting pits are planned to divert the rain water from roofs of different block to these pits.

These pits are located at:

1. PIT- 1: Situated in the western side of campus, adjacent to Workshops (Block III) covering the entire area of Civil and Mechanical Engineering laboratories, open land near Gate 2 of the campus etc. The approximate catchment area of this rain water harvesting pit is about 8 acre.  
The size of this pit 10' x 10' x 7'.
2. PIT – 2: Situated in the eastern side of the campus adjacent to Football Ground covering a catchment area of about 4 acre.  
The size of this pit 10' x 7' x 7
3. PIT - 3: Behind MBA building in the south- eastern side of the campus covering a catchment area of about 4 acre.

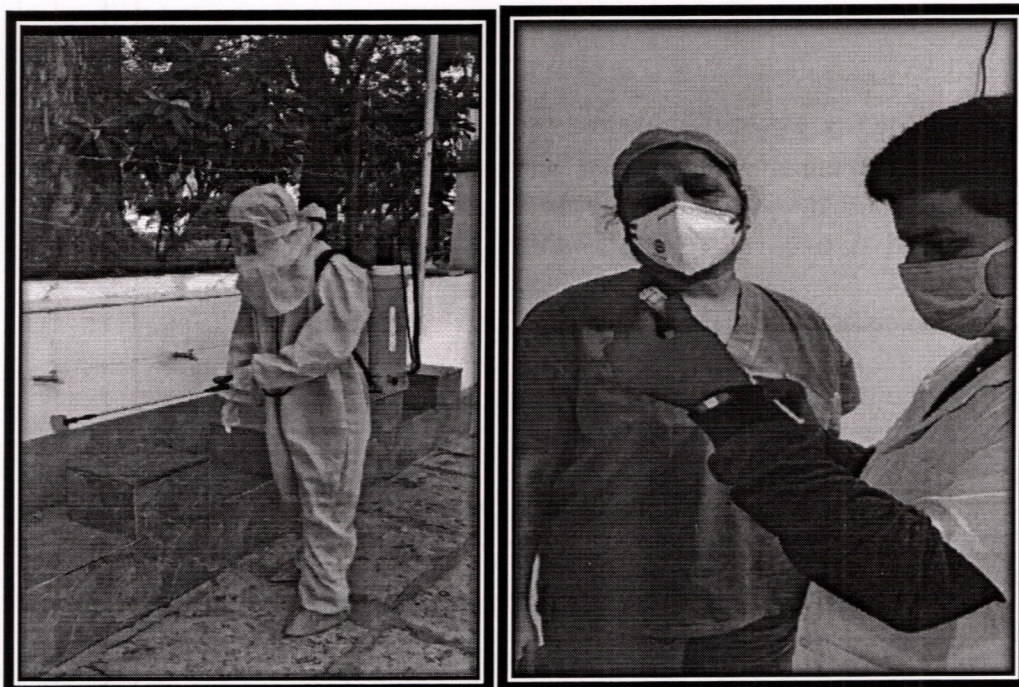

- Borewell
- Construction of tanks and bunds
- Maintenance of water bodies and distribution system in the campus

➤ **COVID 19 Interventions**

The college has undertaken an initiative to conduct **"Each One Reach One Covid Mission"- Community Engagement Services-(Sharing the information and Emotional Support) Recognition & Appreciation**, designed by MGNCRE to provide Guidance for psychosocial Counseling and to support Covid-19 affected patients and their families. The college students has also taken active participation in distribution of hand sanitizer, mask and Kirana kits of essential commodities to the needy migrants and slum dwellers in addition to other activities. Student volunteers ensure that social distancing is followed during distribution. The college also created awareness about corona virus and precautions to be taken to prevent its spread among the students and the community.

➤ **Adopted Villages**

05 villages have been adopted by the college:

1. Peddashapur
2. Cherlaguda
3. Madanpalli
4. Muchintal
5. Gachibavaoli Tanda.

### ➤ Key Interventions/ Achievements in Adopted Village

Under the flagship of Swachh Bharat Abhiyan, The following activities were undertaken in the adopted villages where the primary focus was on cleanliness, hygiene and development of the villagers. Hygiene and medical awareness camps were organized in these villages from time to time. The college has taken an initiative to organize 'Clean India' programme from 1st October to 31st October 2021 under the Department of Youth Affairs, Ministry of Youth Affairs and Sports to create an overall awareness regarding the collection of waste, mainly single use plastic waste and traditional water resources.

To start with, our team conducted few brainstorming and idea-pooling sessions to draft a complete schedule of activities. So, that the idea of 'Clean India' gets delivered in a more creative manner. The adopted villages were selected based on the following factors: -

- Feasibility of the team
- Potential of development
- Availability of logistics and resources

Under this programme, we formulated a team including students and faculty members. The crucial points were discussed, and the following activities were conducted

#### ✚ Sanitization & Hygiene Awareness

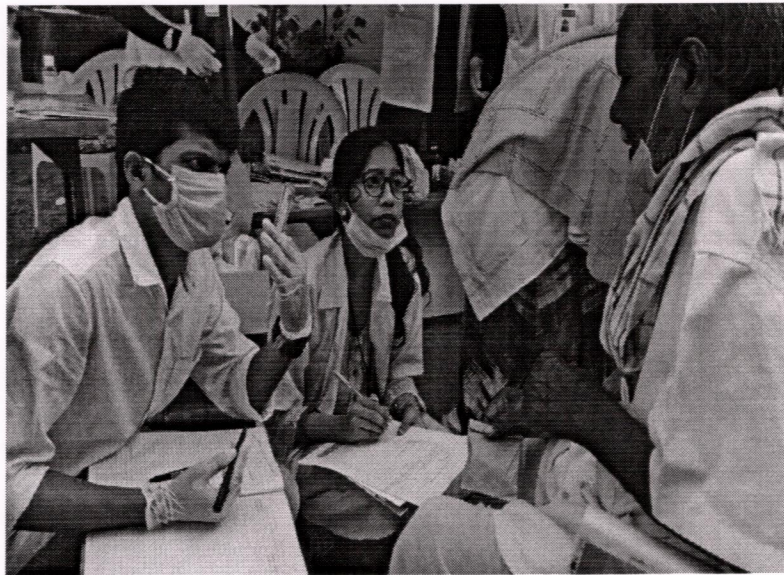

#### ✚ Proper Waste Disposal and Plant Saplings

✦ **Mega Health Camp:** The mega health camp was organized and was open for all age group. The student volunteers actively participated in the following services:

- Patient Counselling
- Distribution of Medication
- Distribution of masks, sanitizer, sanitary pads etc.
- Multivitamins and supplements.

All in all, this was a very exciting and a useful programme to run and it motivates all of us to join the campaign and be a part of the big vision 'Clean India'.

### ➤ Other Key Institutional Achievements/Outcomes

Sultan ul Uloom College of Pharmacy believe that knowledge acquired should be applied to contribute to the well-being of humanity and that our students should lead productive, responsible and meaningful lives. The college has taken various initiatives to spread swachhta in the campus such as Rain water harvesting pits are dug to improve the ground water level, Swachh Campus Activities, dustbins maintenance at every stage of campus and also organized health camps. The college has also taken initiation for adoption of villages as a part of Swachhta Action Plan. The college has been ranked **fourth** amongst **the cleanest higher educational** institutions in the country in the category of **Non-Residential College –AICTE** and was awarded on **3<sup>rd</sup> December, 2019** at AICTE, New Delhi.

#### Activities Include

- ✚ Cleanliness Drive.
- ✚ Sanitation and Hygiene.
- ✚ Water Conservation.
- ✚ Rain Water Harvesting.
- ✚ Waste Management.
- ✚ Energy Conservation.
- ✚ Green Campus (Haritha Haram).
- ✚ House hold campaigning on cleanliness and hygiene outside campus.
- ✚ Awareness on Disease related to Plastic use.
- ✚ Activities during pandemic.

## **Showcase! The Success of Sustainability**

(SAP 2021-22 March Activity- Learning from each other)

Dear Principal ji,

Greetings from Mahatma Gandhi National Council of Rural Education (MGNCRE), Department of Higher Education, Ministry of Education, Government of India!

At the outset, we congratulate you for the exemplary Swachhta activities in your Institution which speak volumes of your dedication and commitment to make not only your Institution but also India a Clean and Green place to live in.

MGNCRE, on behalf of the Ministry, has recognized and appreciated the contribution of Higher Educational Institutions (HEIs) across 721 Districts of the nation in the areas of Sustainability. In this context, we **intend to collect the success stories** of HEIs showcasing their range of experiences of building sustainability, document them, and submit to Ministry.

We would like your Institution to participate in this nation-building endeavour which would gain **recognition for you at the District Level and National Level**. **Kindly let us know your activities, steps, responses, range of experiences for building sustainability on campus and the neighbourhood. The areas of sharing would be** 1. Water Management 2. Energy Management 3. Greenery Management 4. Waste Management 5. Green Area on campus boundary (apart from constructed and unconstructed area). Please fill in the format **given below** and send to [mgncre2022@gmail.com](mailto:mgncre2022@gmail.com)

*This activity is appreciated with a certificate.*

We look forward to your response by **25<sup>th</sup> Feb 2022 5 P.M**

Thanking you

Yours sincerely,

B S C Naveen Kumar

MGNCRE SAP 2021-22 National Monitoring Officer

MGNCRE MoE Government of India

7660802102

### **Collection, segregation and Disposal**

#### **Biomedical waste management, laboratory waste management**

#### **Administration of waste management**

**Eg:** The solid waste generated is mostly papers, answer sheets and waste from kitchen and toilets. The waste paper recycling plant converts waste paper into new papers, file covers, sheets, note pads etc. Dry and wet waste is segregated in separate bins and the garbage is cleared twice a day. Kitchen waste is processed in a vermin compost plant. Weeds, leaves and other garden waste are deposited in organic pits for generation of compost. Liquid waste generated from washrooms, kitchen, laundry etc. are treated in the Sewage Treatment Plant (STP) installed in the campus. The treated wastewater from the STP is reused through double plumbing technique for horticulture purpose. The residual water from vermin composting plant is collected in organic pit and used as a pesticide. Rain water harvesting pits are used for conservation of rain water. Untreated wastes are collected in the garbage disposal bins. Biomedical waste and lubricating oil discharged from generator sets are collected by the government approved vendors.

### **5. Hostel Kitchen Facilities (10 lines)**

#### **Include key sustainable features**

**Eg:** The University has automated and modern kitchens with chimney and multiple exhausts, well maintained servers and cold storage rooms. Kitchen staff is well-groomed and appropriately dressed. LPG is used as the cooking medium and provided with mechanized food preparation units. There is provision of round-the-clock supply of safe drinking water. There are regular food quality checks by the mess committee members. Dedicated staff maintains the hygiene and cleanliness of the kitchen and dining areas.

### **6. Campus Greenery (10 lines)**

#### **Include key sustainable features**

**Area under green cover (%), nursery on campus, plant protection management, tree plantations, exotic, medicinal, local species plants**

**Eg:** The University has a team of horticulturist and gardeners that maintain 70% greenery and landscape of the campus. Over 3500 different types of trees have been planted in and around the campus area. An In-house nursery caters to the need of tree plantation programs. Hydroponic farming techniques adopted by the university has a production capacity of 18 -20 kgs. of vegetables per day. Sprinklers are used for watering the plants and wastewater from the sewage treatment plant is used in horticulture. Saplings are protected by the use of organic pesticides and in-house prepared compost. Plant markers indicating nomenclature and species information are displayed at the designated spots. Bee keeping on the campus induced pollination of many flowering plants.

### **7. Land Use Management (5 lines)**

#### **Include key sustainable features**

**Sustainable activities, constructed and non-constructed area, proposed areas for greenery development, land use management plan**

**Eg:**

#### **10. COVID 19 Interventions (10 lines)**

**Include key sustainable features**

**Sanitation and Hygiene**

**Counselling**

**Technology**

**Other**

**Eg:** The College has partnered with the industry to develop a touchless sanitizer dispenser that can be used in cars, vans, buses, and autorickshaws. The design is scalable and can be used safely with liquid and gel type sanitizers.

The college has undertaken COVID counselling sessions for the students. The college distributed 150 Kirana kits of essential commodities to the needy migrants and slum dwellers in addition to other activities. As the college is surrounded by lot of residents, the premises were lent for the reach of the people to run weekly vegetable market. Student volunteers ensure that social distancing is followed at vegetable market where crowds gather and also volunteer to help police and sanitary workers in their work.

The college created awareness about corona virus and precautions to be taken to prevent its spread among the student community college website and social media.

#### **11. Adopted Villages**

**Eg:**

Dimoria Development Block, Kamrup Metropolitan District, Assam

12 villages have been adopted by the university:

1. Jugdol
2. Upper Tapesia
3. Patarkuchi
4. Medhikuchi
5. Nam Tapesia
6. Goriaghuli
7. Nazirakhat
8. Morangabari
9. Kalitakuchi
10. Jargoan
11. Sagoligoan
12. Hatimora

#### **12. Key Interventions/ Achievements in Adopted Villages (10-15 lines)**

**Include key sustainable features**

**Eg:** Under the flagship of Swachh Bharat Abhiyan, The following activities were undertaken in the adopted villages where the primary focus was on cleanliness, hygiene and development of the villagers. Hygiene and medical awareness camps were organized in these villages from time to time.

**Any other Details Sharing (if Any):**

## MGNCRE Institutional Community Engagement 2021 Key Achievements

As per the directive of the Ministry of Education and in keeping with the National Education Policy 2020 guidelines, MGNCRE embarked on several nation building programmes including promoting Community Engagement in the Higher Educational Institutions (HEIs) across the country with the participation of faculty and students. The Council in coordination with Departments in Higher Educational Institutions conducted highly successful Faculty Development Programmes and Workshops.

In this context of the COVID-19 pandemic and its aftermath, it is morally and socially binding to bring awareness about the implications of the disease and more importantly don the mantle of Volunteers to support the affected through networks.

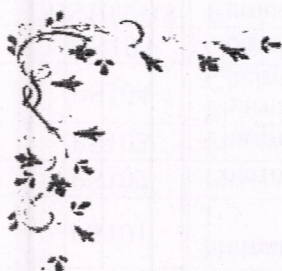

Creating Student COVID Volunteer Groups and imparting the appropriate Volunteer Skills to them after giving practical training and guidance by MGNCRE Resource Persons has come up as internal institutional mechanism that can be constituted in every Higher Educational Institution of the country.

**Institutional Cells** - A total of 795 Institutional and 80 Cluster workshops on Social Entrepreneurship, Swachhta and Rural Engagement were conducted with 2260 Institutional Cells formed. More than 8000 Action Plans were received while participants numbered about 43,000.

Faculty Development Programmes	Units	Successful Participants
Building Emotional Intelligence and Resilience - Case Method of Experiential Teaching and Learning	4	295

## A REPORT ON SIGNAGES OF INSTITUTION SWACHHATA PLAN

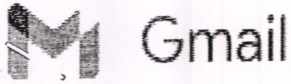

With Expectation of making fit age and stable future and to develop sense of well -being our Institution "Sultan-ul-Uloom College of Pharmacy "emphasized to work as a team to ensure Swachhata Action Plan Policy for preservation and sustainability of Environment.

### List of Activities Done

Name of the Activity	Objective of Activity	Impact
<b>Sanitation and Hygiene</b>	i)Maintenance of Cleanliness. ii)Smart Bins iii)Plogging iv)Health camp	It helped to create awareness about Environmental and health problems and to take measures for healthy society.
<b>Waste Management</b>	i)Cleanliness Drive ii)Segregation of Waste	To create awareness about the impact of waste and how to minimizes overall waste production.
<b>Water Conservation</b>	i) Optimum use of water and its saving	Maintenance of water bodies and distribution system in the campus
<b>Rain Water Harvesting</b>	i)Rain Water Harvesting Pits	This helped to improve the ground water level
<b>Energy Conservation</b>	i) Reduction in Energy Consumption	To benefit the environment by reducing and managing energy consumption through technologies
<b>Green Campus</b>	i)Haritha Haram ii)Plant Saplings	This sensitized the students towards environment protection and sustainability
<b>Student Activity in Pandemic Era</b>	i)Food Distribution, Mask and Hand Sanitizer Distribution. ii) Awareness Camp iii)Vaccination Drive. iv)Awareness on "Beat Covid-19"	To provide social, economic and psychological and health support. Awareness towards the importance of vaccination.

### MGNCRE-SAP INTERNATIONAL SIGNAGES DAY 23rd September 2021\*

Dear Convener of SAP Committee/ Head of the Institution  
Greetings from Mahatma Gandhi National Council of Rural Education!!!

Let's Join together for International Signages Day on 23/09/2021 in Association with Mahatma Gandhi National Council of Rural Education under Department of Higher Education Ministry of Education Government of India

### 4 Simple steps to follow:

- Make Institution Swachhta Action Plan Policy
- Mobilize for Swachhta Activities among your Teaching/Non-Teaching Staff and Students for Participation
- Tag the Policy at Every Department
- Give a small Message for the need of Swachhta

Please Fill the following Google form : <https://forms.gle/bK2ZzhLSbmCkTaM9>

Kindly join the WhatsApp Group Using following links:

The UN General Assembly has proclaimed 23 September as the International Day of Signage

Unveil the policy of Swachhata on Campus!

Signages of Swachhata Policy be Displayed on Campus!

- Make Institution Swachhata Action Plan Policy
- Mobilize among your Teaching/Non-Teaching Staff and Students for Participation
- Tag the Policy at Every Department
- Give a small Message for need of Swachhata

The approved Policy must contain at the following:

- a. **Sanitation and hygiene policy:** Maintenance of cleanliness and institutionalization of monitoring processes.
- b. **Water conservation policy:** Optimum use of water, reuse of treated water, water saving appliances and water recycling.
- c. **Rain water harvesting policy:** porous pavements and rainwater harvesting structures.
- d. **Waste Management Policy:** 5 R principles of reduce, reuse, recycle, refuse and regenerate as well as reducing waste sent to landfill to less than 10% of waste generated. Banning all plastic disposable items from the campus is the first step. Drawing lessons from Swachh campaign for handling computer & electronic equipment and other e-wastes.
- e. **Energy conservation policy:** Introduction of solar energy and reduction in energy consumption through technologies and management processes.
- f. **Greening Policy:** Growing endemic and endangered species of trees covering at least 33% of land area on campus.
- g. **Student Activity Policy:** Maintenance of Swachhata during students' cultural programs and any student activities.

**MGNCRE – Higher Education Institution – Each One Reach One Community Engagement Services (Emotional Support or Sharing the Information) - Recognition & Appreciation**

“Each One Reach One” initiative was taken by Sultan-ul-Uloom College of Students to extend an emotional support, psychological and health care support. The faculty and student volunteers have actively participated and opted for Hospital management team services from 06-06-2021 to 25-06-2021 (20 days programme). The services offered by our students include the number of availability of beds in ICU & Ventilator, Covid testing centres, Covid helpline numbers at Aster Prime Hospital.

Mr. Amtul  
Send an old file  
20/7/21

Dear Professor  
Greetings of the Day!!!

We are planning a very good picture based document on your efforts in Community Engagement for Covid Volunteer Service. We need small write-ups on the excellent service done by students of Higher Education Institutions with your effort. Please send selected 8 photographs in this field along with 2-3 sentences.

I see the fantastic work done by each one of you. Please share the best photos depicting your best effort. Cardinal principle of best photo is \*NO ONE IS LOOKING AT THE CAMERA\*

**Please send them by mail before 1pm on 20th July.**

Dear Professor Ji

Greetings of the day!

Hope you all are safe and doing good.

**Sub – . MGNCRE – Higher Education Institution – Each One Reach One Covid Mission - Community Engagement Services (Sharing the Information and Emotional Support) - Recognition & Appreciation - Reg**

We all are witnessing the pathetic situations due to Covid 19, the entire country is facing difficult times. Being an academician, I request everyone to extend their helping hand at least to a single person.

There is a necessity to extend an Emotional Support or any possible services to our Colleagues, Friends and Relatives who are struggling for their survival. It is an important criteria as per the Psychology, it is the only potential tool to develop a positive view and can also bring a spark of hope in the human beings during the painful situations at the moment. The faculty members can play a major role in terms of giving emotional upliftment.

In this context, we all need to take an initiative of giving Emotional Support by contributing daily 10 minutes or 20 minutes or 30 minutes of our time. In this mission all the faculty members and students can be a part, by extending contribution of giving emotional support to atleast one person which makes high impact.

We, Mahatma Gandhi National Council of Rural Education, will recognize your effort and appreciate your services. All the Institutions, Faculty Members and students will receive a certificate from MGNCRE for the services you are offering. This certificate is useful and helpful in terms of Institution Rankings, Faculty Performance score and career development for the students.

Please fill the Google form

<https://forms.gle/ft6MzxFXXAcRRW1u9>

Note -All Faculty Members and Students are requested can contribute your time without Going Outside

Thanks & Regards

- The Higher Education Institution will receive an Appreciation Certificate from MGNCRE, Department of Higher Education, Ministry of Education, Government of India for offering the services during the pandemic
- The contribution of the Faculty Members and students can be documented together and can be represent as a contribution of the Institution during the pandemic as part of Institution outreach activities. This can earn a good fame and recognition in the society.
- The Appreciation Certificate received from MGNCRE, MoE, GoI is useful for increasing the ranking of the Institution and can be represented to NAAC, NBA, UGC, State Education bodies..etc.

**Benefits for the Faculty members:**

- Faculty Members will receive Appreciation Certificate, from MGNCRE, Department of Higher Education, Ministry of Education, Government of India for guiding the students to contribute their services ( in whatever way, it can be possible).
- The Appreciation Certificate will be useful for increasing Academic Performance Index Score (API) as a part of Career Advancement Scheme
- Faculty members can also submit it as a minor paper or project to the related professional bodies

**Team 2 – Sharing the Information of Non – Hospital Management Services – Availability of Medical Essentials , Availability of Oxygen, Concentrator's, Blood, Information of Vaccination Centres**

**How can contribute**

**Step 1** - Create One what app groups with your colleagues or friends or with your neighbors ..etc

**Step 2** - Collect the contacts of Medical Shops, Blood Banks, Area Medical officer, NGOs who are offering food and Groceries ..etc, tell the purpose of whats app group to them and add them into your whats app group

**Step 3** - Try to document each task whatever you had done and take the guidance from your Faculty or Principal or Head of the Department, in terms of the documentation of your contribution

**Step 4** – Send the consolidated 20 days documentation to [tutisandhyamgncre@gmail.com](mailto:tutisandhyamgncre@gmail.com) and also inform same to Ms Tuti Sandhya (9392789547)

**Team 3 – Giving Emotional Support – Communicating with covid effected on phone, covid effected family, etc**

**How can contribute**

**Step 1** – In your friends circle if you know anyone who are effected with covid, try to contact them and give Emotional (Moral) Support

or

Try to call the contacts of your mobile, try to be a good listener instead of asking questions

(Example – Naresh is a student of Venkateswara College, He has 100 contacts (100 people) in his mobile,

In 1 Day he speaks with 5 people, In 20 days he speaks with 100 people)

**Step 2** – Try to document the emotions or feelings you are observing while communicating with them and how you are giving response to them

**Step 3** – Take the guidance from your Faculty or Principal or Head of the Department, in terms of documentation of your contribution

**Step 4** - Send the consolidated 20 days documentation to [tutisandhyamgncre@gmail.com](mailto:tutisandhyamgncre@gmail.com) and also inform the same to Ms Tuti Sandhya (9392789547)
