# Online Poster Making Competition on “World Entrepreneurs Day”

## WORLD ENTREPRENEURS DAY

Entrepreneurship is the immense strength and human spirit of which made possible the great geographical discoveries of the world. Innovation and risk-bearing are regarded as the two basic elements involved in entrepreneurship.

**Innovation**  
Innovation, i.e., doing something new or something different is a necessary condition to be called a person as an entrepreneur. The entrepreneurs are constantly on the lookout to do something different and unique to meet the changing requirements of the customers.

**Risk-Bearing**  
Starting a new enterprise always involves risk and trying to do something new and different is also risky. The reason is not difficult to seek. The enterprise may earn profits or incur losses because of various factors like increasing competition, changes in customer preferences, shortage of raw material and so on. An entrepreneur, therefore, needs to be bold enough to assume the risk involved in the enterprise.

**Team**

- Large, gender-diverse and racially diverse team with a range of talents, rather than an individual entrepreneur
- Graduate degrees
- Management experience prior to start-up
- Work experience in the start-up industry
- Employed full-time prior to new venture as opposed to unemployed
- Prior entrepreneurial experience
- Full-time involvement in the new venture
- Motivated by a range of goals, not just profit
- Number and diversity of team members' social ties and breadth of their business networks

**START UP**

Afreen sultana

pharmd third year

**How to Identify an Opportunity**

- Entrepreneurial opportunities may include:
- Developing a business plan
- Hiring human resources
- Acquiring financial and material resources
- Providing leadership
- Being responsible for both the venture's success or failure
- Risk aversion
